Timesheet App

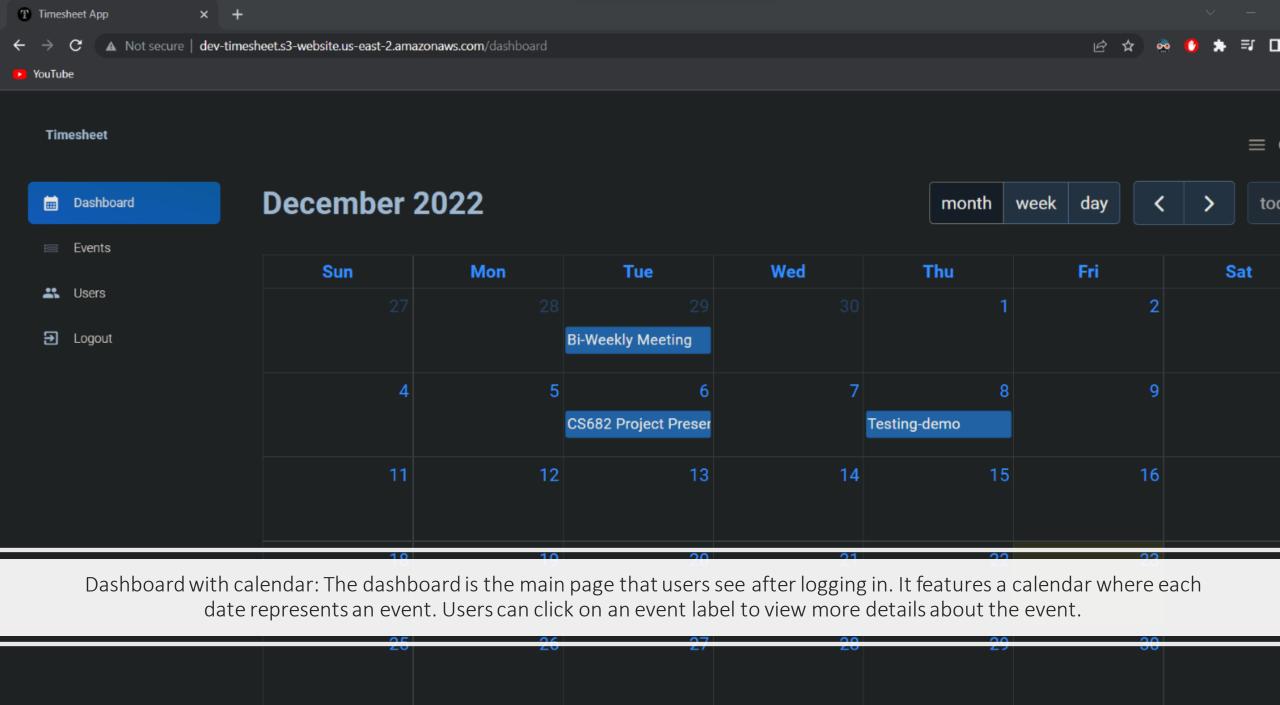

End user manual v1.0

Theme Select Dark/Light

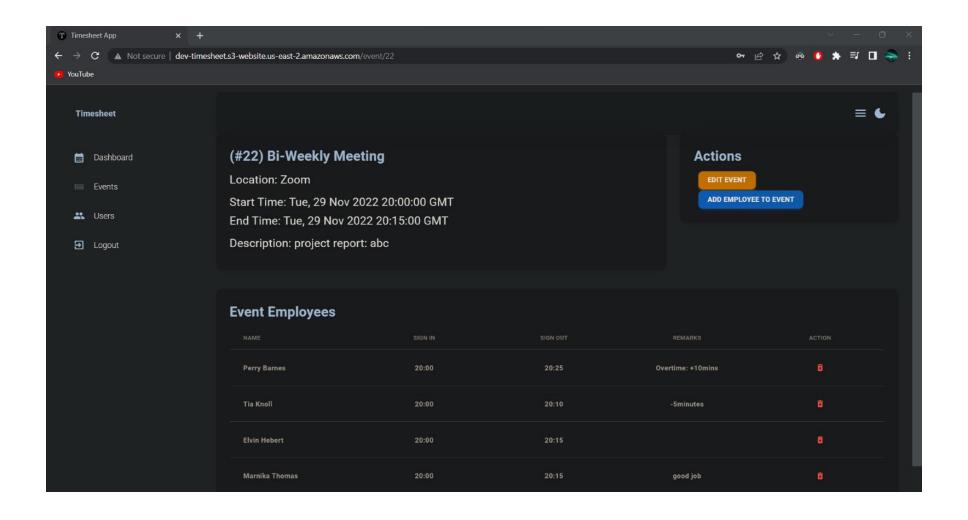

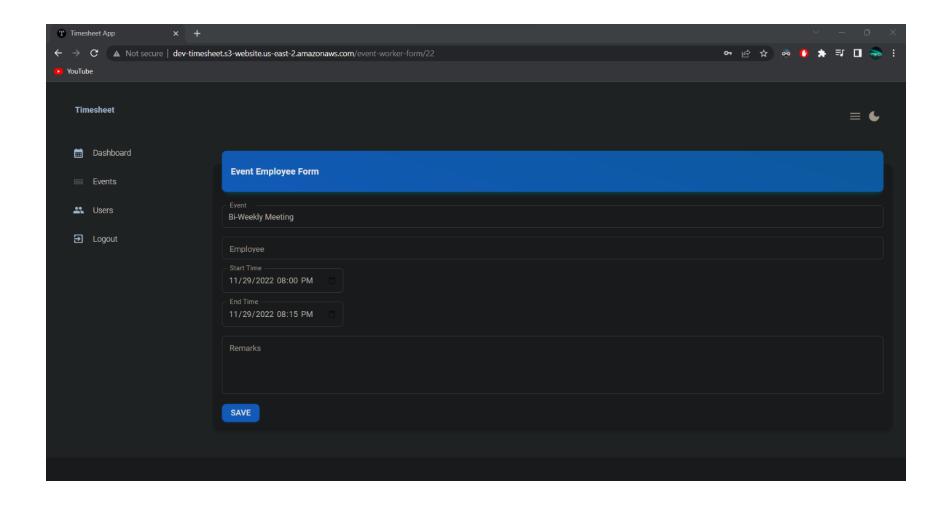

Sign-in Page: This is the page where users can enter their login credentials (email and password) to access the web application.

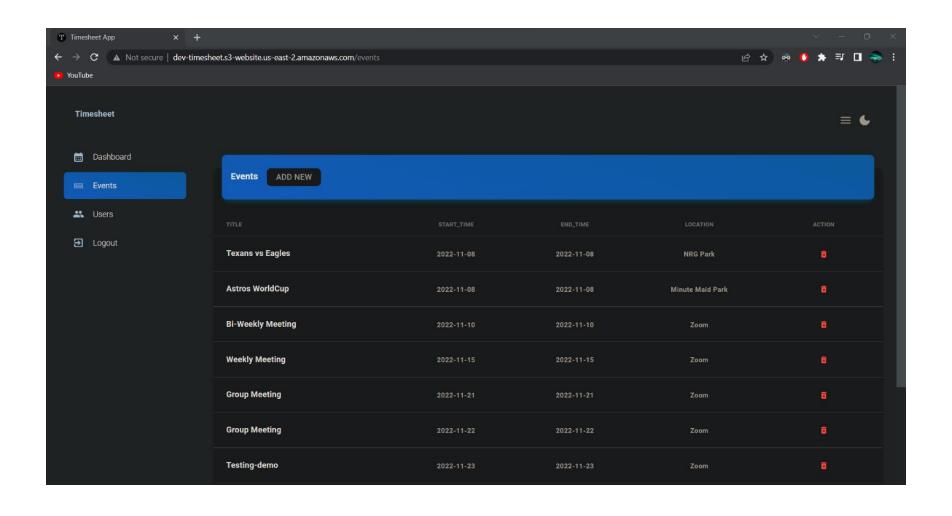

Event detail page: This page displays all the information about a specific event, including the title, location, start and end time, and description. Users can add or delete employees from the event by using the appropriate buttons on this page.

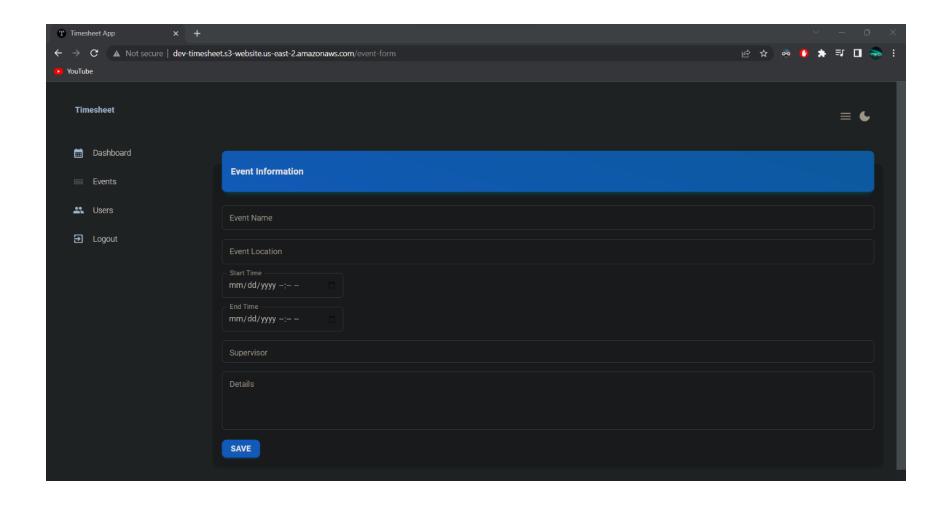

Event employee form: This form allows users to add an employee to a specific event by selecting the event, employee, and start/end time. Users can also add any additional remarks or notes about the employee's role in the event.

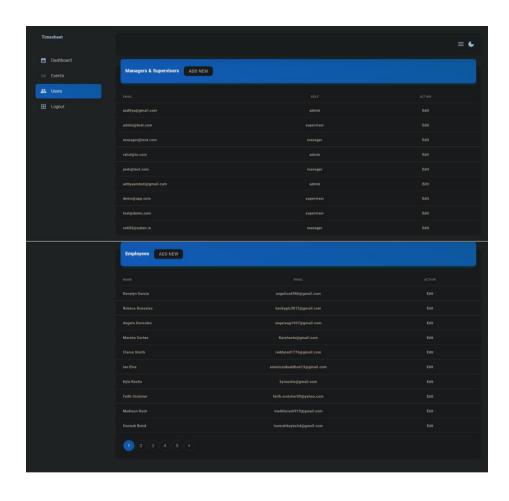

Event list page: This page displays a list of all the events that have been created in the web application. Users can click the "Add new" button to create a new event.

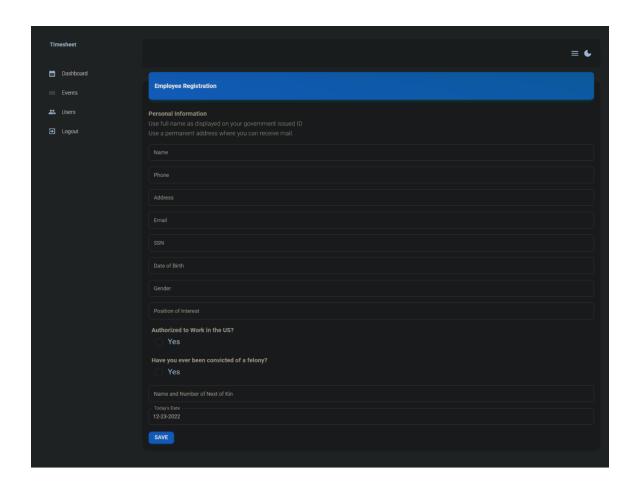

Event creation form: This form allows users to create a new event by entering the name, location, start and end time, and superviser information. Users can also include a description of the event.

Users page: This page displays two tables: one for temporary employees and one for supervisers and managers. Only supervisers and managers can access this page, as temporary employees cannot log in to the web application. Users can add new employees or supervisers by clicking the "Add new" button for each table.

Employee creation form: This form is used to add new employees to the web application. It includes fields for the employee's name, phone number, address, SSN, date of birth, gender, authorization, conviction, and next of kin details.

User create page: This page allows users to create a new account for the web application by entering an email, password, and role (either superviser or manager).
